MEMORANDUM FOR: Director of Central Intelligence

THROUGH: Deputy Director of Central Intelligence
Director, Intelligence Community StaffFROM: [REDACTED]
Director, Office of Planning

SUBJECT: Strategic Planning - The External Perspective

REFERENCE: DCI/ICS 82-4238, same subject, 7 June 1982

CAB
28 OCT 1982

25X1

1. Working closely with [REDACTED] of your staff, the Office of Planning 25X1 has further refined the proposal contained in the referent and approved by you on 1 July 1982. That proposal called for the OP to conduct a separate, parallel, and unclassified long-range exercise utilizing the resources of the private sector. We have refined the specifics of the proposal to the point where we can now ask for your direct assistance.

2. We believe that our time would be spent most profitably, as well as minimize the inconvenience to the participating executives, were we to dispense with the preliminary meeting of everyone here in Washington as originally suggested. Instead, we would ask you to sign the attached letters in Annex A addressed to the dozen companies listed in Annex B. The letters outline the objectives of our internal planning efforts, and our reasons for believing that an external perspective would be a desirable adjunct. We request their assistance, and ask that they designate an official to contact our office for the purpose of elaborating further on the project and arranging for personal meetings with them either here or at their headquarters.

3. We greatly appreciate your assistance in this project, and are confident that it will greatly enhance the value of our planning efforts,

Mr. John R. Opel, President
International Business Machines Corporation
Old Orchard Road
Armonk, NY 10504

Dear Mr. Opel:

I am writing to ask for your assistance in a matter that is of great concern to me as Director of Central Intelligence--the need for long-term, strategic planning. To date, our strategic planning efforts have been internal ones, but I believe that we are at a point where we would benefit greatly from an external perspective.

Your firm is a leader in its field to a great extent because you have elected to anticipate the future rather than respond to it. We hope to compare the future challenges and responses that we have identified with those same planning elements generated within your firm. The comparison will permit us to validate our own efforts with respect to scope and imagination.

If you can help us in any way, I would appreciate your having the appropriate official contact my project officer, [redacted] [redacted] He is prepared to describe this project in greater detail, and arrange a meeting with your staff either in Washington or at your offices.
